# Primary 5 Newsletter

Term 1

## Welcome!

Welcome to Primary 5, where your new teachers are Miss McMillan and Miss Souter. Both teachers are thoroughly enjoying getting to know you and looking forward to an exciting year of learning together with you.

We have been reading George's Marvellous Medicine as our class novel and we are loving it so far!

Our new topic in Science is Space and everyone is very keen to learn and explore this further!

## Class information

Our Physical Education days are Wednesdays and Fridays. Please make sure to wear appropriate gym wear and trainers in order for you to be able to safely take part in our lessons.

## Homework

Homework will be given out every Monday and will be due in on a Friday. This will consist of Literacy and Numeracy tasks.

Please ensure that these are returned on time and of a high standard.

## Numeracy and Mathematics

We are focusing on revision of first level and moving on to second level. This term our focus will be on number processes and place value with Miss McMillan while Miss Souter will be focusing on revision of 2D and 3D shapes, time and data handling.

## Literacy

We have begun Stage 5 of our phonics/ spelling programme. The structure of the programme is the same as last years.

Our reading strategies will be modelled and explored this term through our class novel. Tasks will be based on this novel to allow children to practice the skills before doing them independently with their group reading books.

Thursdays and Fridays will focus on writing skills and handwriting practice.
